

ISME 2009

The 6th International Symposium on Management Engineering

School of Management
Dalian University of Technology
August 5-7, 2009, Dalian, China

The International Symposium on Management Engineering (ISME) has been successfully held in Japan since 2004, and the 6th ISME will be held on August 5-7, 2009 in Dalian, China. Dalian is an international city known for information technology (software outsourcing especially), shipbuilding industry and equipment manufacturing. Dalian is also a beautiful coastal and tourist city famous for sightseeing.

The symposium is held for promoting researches on the management engineering. The management engineering was renamed from "Industrial Engineering" where the strength is placed on management as well as production in industrial engineering fields. In recent years, researches on management of logistics, service, supply chain and knowledge have become prosperous. In addition, new applications of Mobile business derived from e-Commerce are developing fast and widely. New concepts and theories from above have promoted ubiquitous communication and collaboration. We are welcoming all participants to attend and present recent results and discuss on management engineering from the perspective of knowledge management and e-Commerce.
